Bangalore, India

Sirs:

I have your note of June 11th (although I can't read the signature, so am not sure whom to address....) about the unsettled bill for the photo prints you made for His Highness in March.

As you know, I passed your bill along to the Palace the very day I received it and I was sure it would have been taken care of before HH's departure for America. It must have been overlooked in the take-off rush, especially as both the Major and Mr. Palegar went with him.

At this moment I do not know to whom to refer your bill, or who might have it in Mysore. All I can do is to wait until His Highness' return in July - and I shall then immediately pass your reminder note along to him. Meanwhile, I am sorry for the delay.

Sincerely yours,

Julie Medlock
